Chile and its Pork Industry

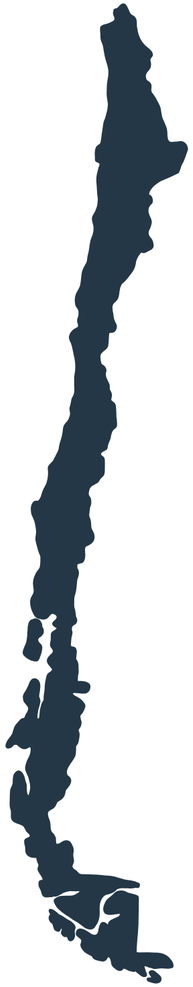
Committed to biosecurity, food safety, and sustainability

Juan Carlos Domínguez
President of ChileCarne

Chile: A food exporting powerhouse.

1 Chile benefits from unique conditions for food production.

An “island” of natural biosecurity.



Shielded by the Atacama Desert to the north.

Flamingos, Atacama Desert salt flats, Northern Chile

The Pacific Ocean to the west.

Humboldt penguin, resident of Chile's northern coasts

The Andes Mountains to the east.

Ringed kingfisher, lives near lakes and rivers along the Andes

Patagonia and its ancient ice to the far south.

Chilean puma, an icon of Chilean Patagonia

2 Chile’s health authority is internationally recognized.

Agricultural and Livestock Service, **SAG**.

3 Chile is connected to the world.

36
Free Trade Agreements.

65
economies worldwide.

64%
of the world's population.

88%
of global GDP.

Sustainability

- Biosecurity
- Food Safety
- Sustainability
- Foreign Trade

we CARE

#AboutBiosecurity

#AboutBiosecurity

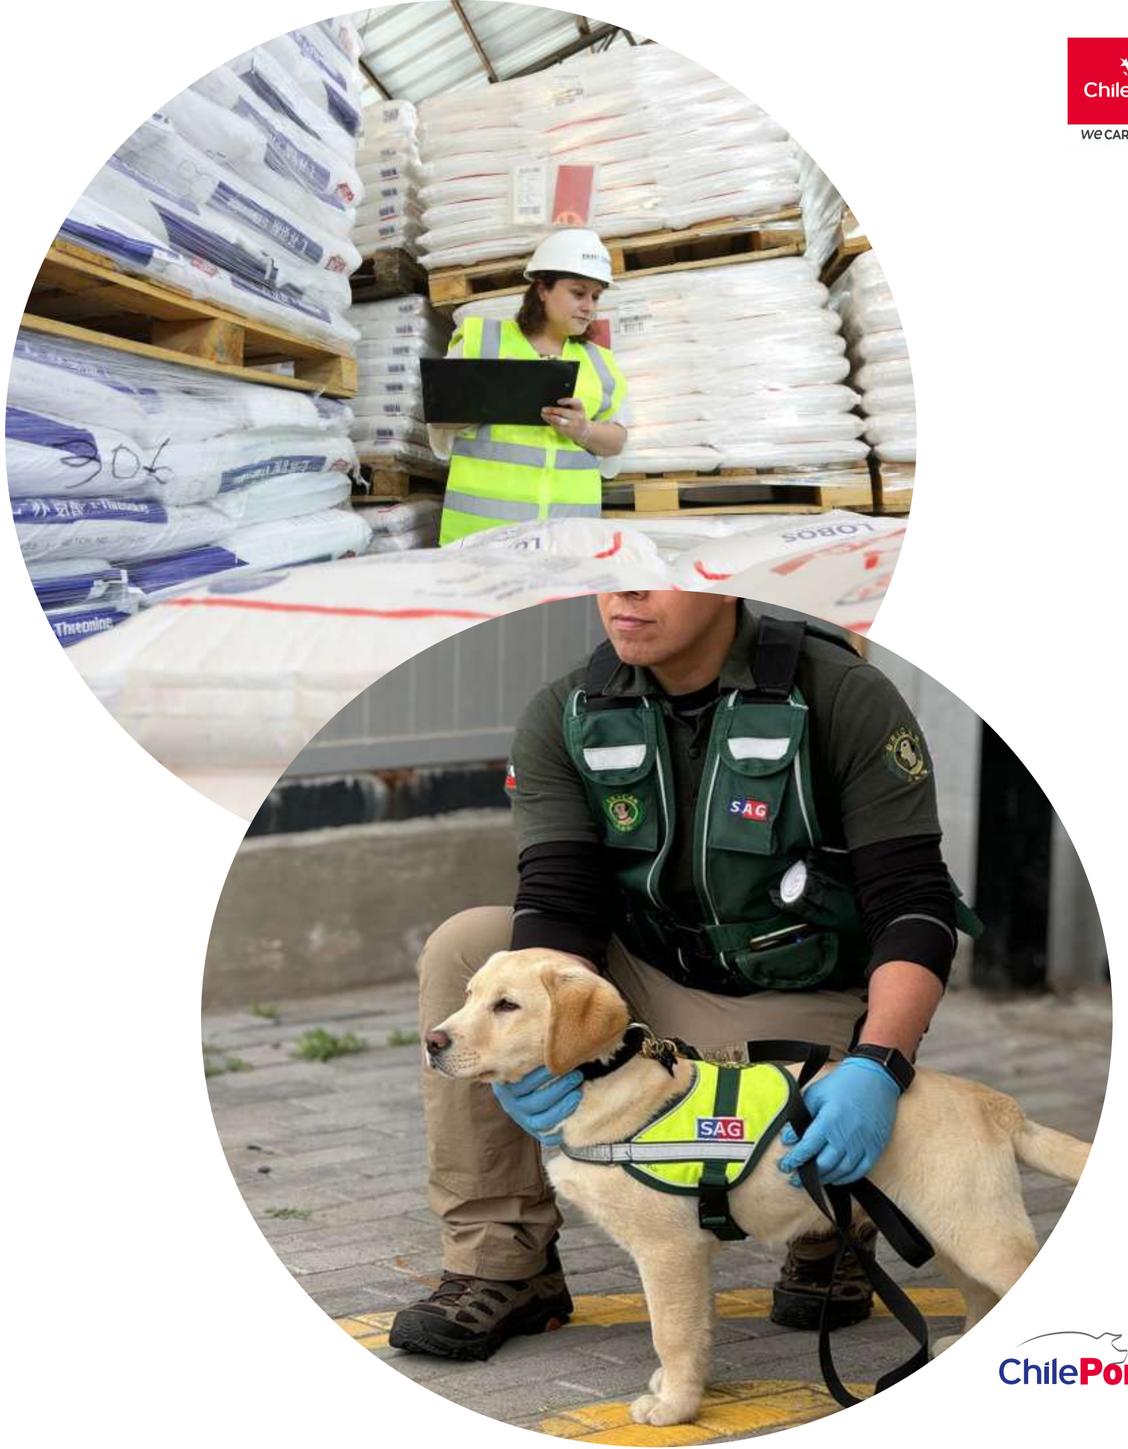
Active surveillance and monitoring

- Monitoring disease in backyard and farm production.
- Self-reporting and training.
- Strengthening of SAG lab.

#AboutBiosecurity

Preventing ASF

- Biosecurity standard for backyard and farm production.
- BIO REP Program: Safekeeping of inputs.
- Border control with detector dogs and campaigns.



#AboutBiosecurity

ASF emergency response.

- Outbreak eradication and containment.
- Mapping wild boars, a risk factor.
- Zoning negotiations with critical markets.

#AboutBiosecurity

Chile is PRRS and ASF free

we CARE

#AboutFoodSafety

#AboutFoodSafety

Comprehensive control of chemical residues

- Dioxin analysis of raw materials and feed.
- Meat screened for drugs, contaminants, and pesticides.
- Meat screened for banned substances.

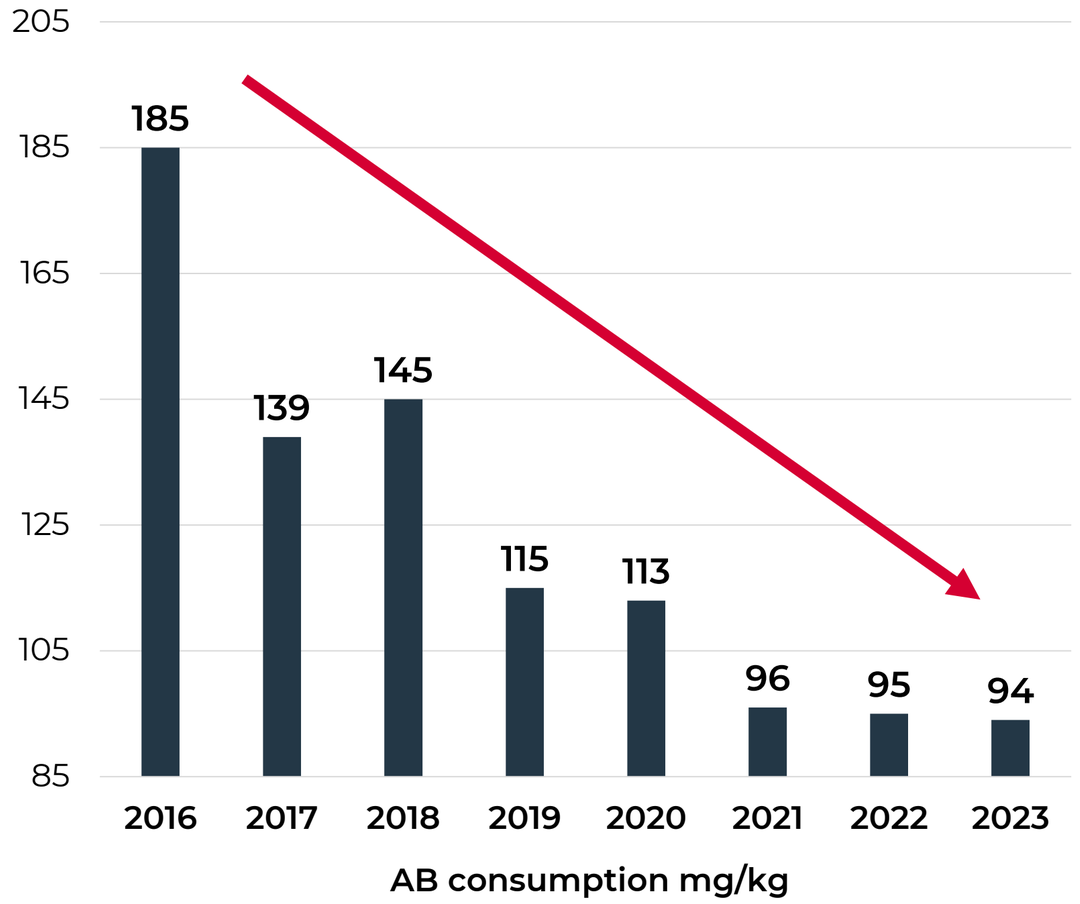
Chile we CARE

ChilePork

#AboutFoodSafety

Reduction and prudent use of antibiotics

- Sensible use of veterinary treatments.
- Gradual reduction of antibiotics use.
- Commitment to public health and exports.



#AboutFoodSafety

Microbiological programs

- Regular official inspections in processing plants.
- Self-control programs to ensure food safety.
- Compliance with international standards.

ChilePork

we CARE

#AboutSustainability

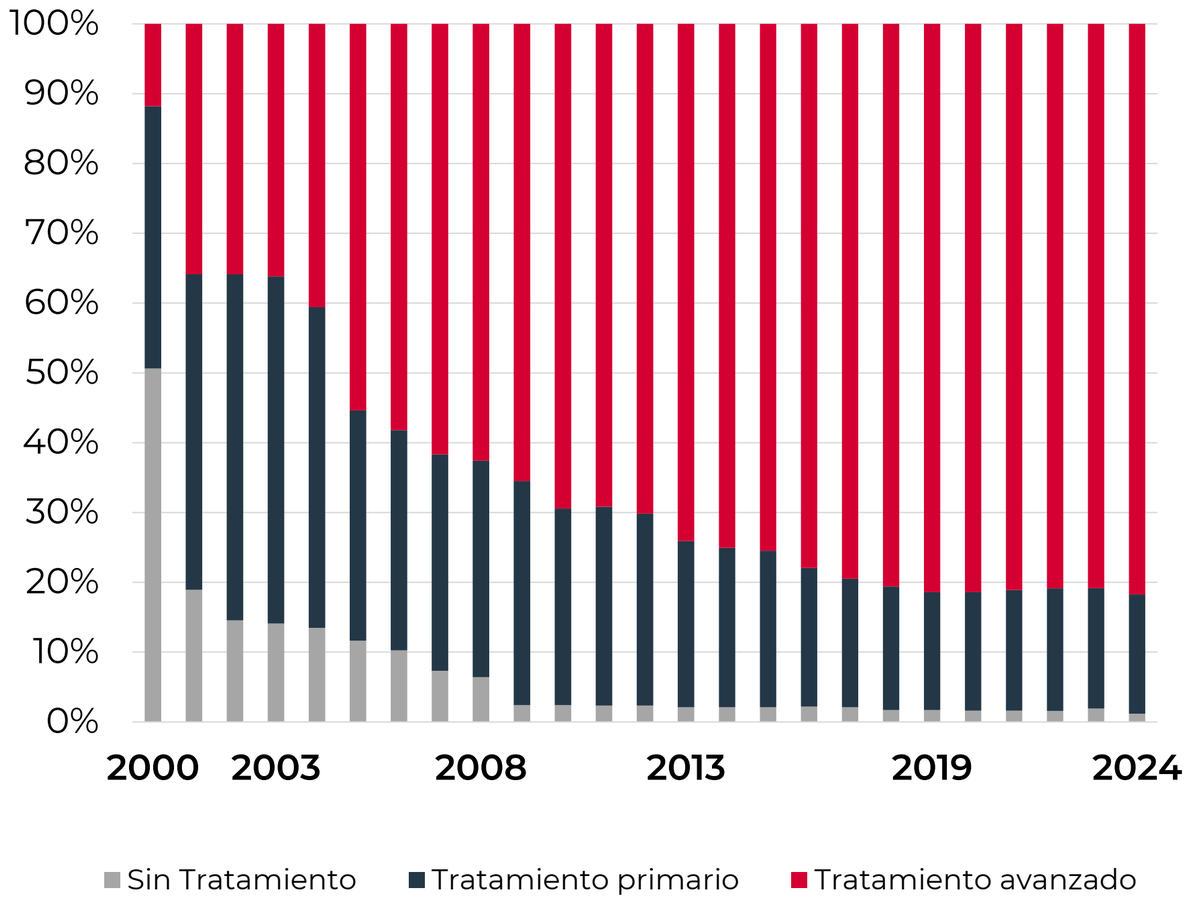
#AboutSustainability

Water Efficiency

- **69%** drop in water consumption per animal in the last 20 years.
- **62%** of water reused and recirculated.

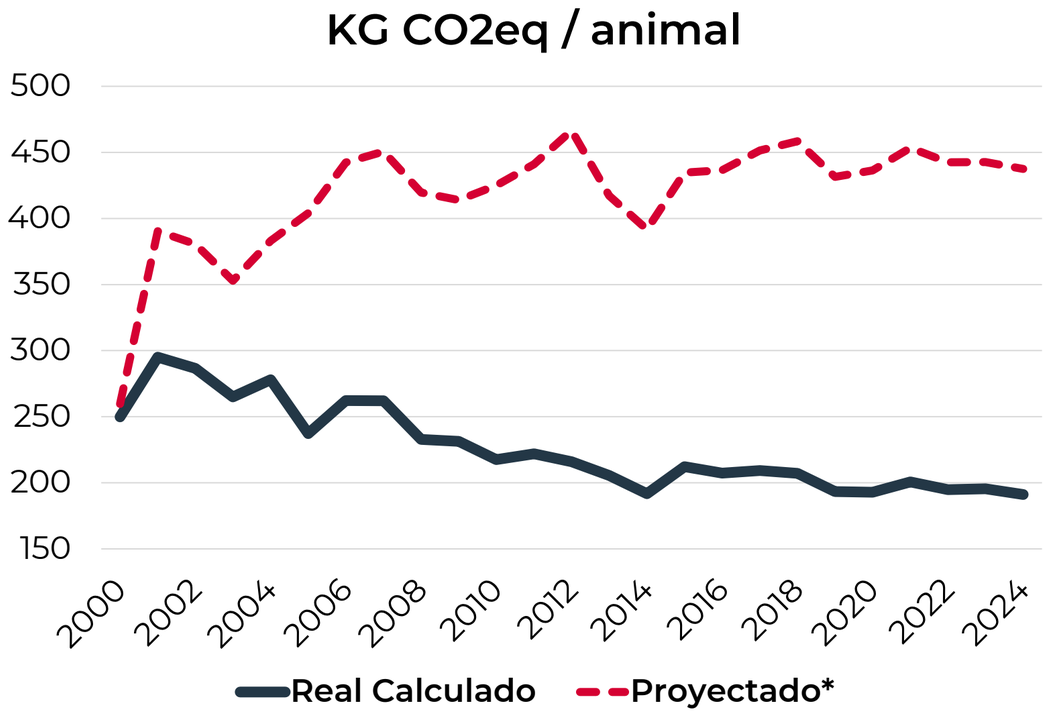
Advanced Waste Management

- **82%** of animals reared with advanced slurry treatment systems.
- Waste recovery: Organic fertilizer production.



GHG reduction

- **-24%** drop in GHG emissions over the last 24 years
- Optimization of production and energy processes



* Prospected scenario with no treatment systems implemented

#AboutSustainability

Commitment to Animal Welfare

- International welfare certifications (Cloverleaf / Welfcert).
- New infrastructure: Group gestation pens.
- Welfare innovation: Environmental enrichment at farms.

Chile Conscious Origin

- Official program of the Chilean Ministry of Agriculture.
- International standard based on SDG indicators.
- **77%** of pork production is already certified.
